ROLLING green Wisconsin meadows studded with daisies and daffodils, beautiful clean barns, sunshine and the loving hand of the farmer's wife that feeds them milk and corn aplenty, is the brief heaven for the beautiful hogs that Oscar Mayer transforms into luscious Hams. They are cured in smarting brine, then covered with sugar and roasted in our ovens at a temperature of 450° which cooks them evenly and makes the sugar melt and seep within the cells giving it that alluring rich mildness and hickory fantasy which is so distinctively delicious and makes your lips smack with joy.

Do you know that since 1919 we have sold—

4,840 TONS OF HAM

A mountain as high as the Himalayas—and, all of this to serve you best
